

## **Approval by the Annual General Meeting of June 24, 2020 of the transfer of Amoéba shares to Euronext Growth Paris**

**Chassieu (France), June 24, 2020 - AMOEBA (FR0011051598 - AMEBA)**, producer of a biological biocide capable of eliminating the risk in water and human wounds, and of a biocontrol product for plant protection, still in the testing phase, announces that the Ordinary and Extraordinary Shareholders' Meeting held on June 24, 2020 approved the proposed transfer of the listing of its shares from the Euronext Paris regulated market (compartment C) to the Euronext Growth Paris multilateral trading facility, and grants full powers to the Board of Directors to implement this transfer of listing.

The Board of Directors, which met on 24 June 2020 following the Annual General Meeting, decided to implement this transfer. Amoéba's shares will be listed on Euronext Growth Paris within a minimum period of two months.

### **Reason for the transfer**

This project aims to enable Amoéba to be listed on a more suited market to its size and market capitalization. The transfer to Euronext Growth Paris should also simplify the Company's operations and reduce the costs related to its listing, while enabling it to continue to benefit from the financial markets appeal.

### **Condition of the transfer**

The transfer project was approved by the General Assembly of Amoéba

Subject to the approval of Euronext Paris SA, the company's listing on Euronext growth Paris will be carried out under an accelerated procedure for the admission to trading of the Company's existing shares, without the issue of new shares.

### **Consequences of the transfer**

In compliance with current regulations, Amoéba informs its shareholders of the possible consequences of such a transfer:

*In terms of protecting minority shareholders:*

- the protection of minority shareholders, in the event of a change of control, will be ensured on Euronext Growth Paris by a mandatory public offer mechanism in the event that the threshold of 50% of the capital or voting rights is crossed, directly or indirectly, alone or in concert;

- companies listed on Euronext Growth Paris must only disclose to the market, in terms of changes in shareholding, when thresholds (upwards or downwards) of 50% and 95%<sup>1</sup> of the capital or voting rights are met;
- in accordance with legal provisions, Amoéba will remain subject, for a period of 3 years from the date of its delisting from the Euronext market, to the mandatory public offer regime and to the maintenance of the disclosure requirements relating to the threshold upwards or downwards as applicable for companies listed on Euronext.

*In terms of periodic financial reporting, there are lighter requirements, including, without claiming to be exhaustive:*

- extension to 4 months following the close of the half-year period of the half-yearly financial statements publication deadlines, including a balance sheet, an income statement and comments on the period;
- reduction of the information required for the corporate governance report and the management report.

The Company will publish, within four months of the closing date, an annual report including its annual (and consolidated) financial statements, a management report and the Statutory Auditors reports. The Company will choose, with a view of transparency for its investors and shareholders, to maintain the IFRS standards application. It will also prepare a report on corporate governance (lighter content). Within four months of the end of the first half of the year, it will publish a half-yearly report including its interim financial statements and a management report relating to these financial statements.

*In terms of permanent and regulated information:*

Amoéba will continue to provide accurate, precise and truthful information, making public any insider information concerning the Company, in accordance with the European Market Abuse Regulation (MAR) which also applies to companies listed on Euronext Growth Paris.

Regulated information (and in particular insider information) must always be effectively and in full released. The Company will continue to use a professional wire.

The ISIN code of the Amoéba share will remain unchanged: FR0011051598. The mnemonic code AMEBA will become ALMIB as from the admission of the shares on Euronext Growth Paris.

As part of its transfer to Euronext Growth Paris, Amoéba is accompanied by Portzamparc BNP Paribas as Listing Sponsor.

---

<sup>1</sup> This threshold of 95% could soon change or be completed

#### *Impact on the share liquidity:*

As this is an unregulated market, the transfer to Euronext Growth Paris could result in a change in the liquidity of the share that differs from the liquidity observed since the start of the Company's listing on the Euronext Paris regulated market. Such transfer could also lead some investors, preferring securities of issuers listed on a regulated market, to sell their Amoéba's shares.

### Indicative timetable for the proposed transfer to Euronext Growth Paris (subject to the agreement of Euronext)

#### **March 27, 2020:**

Publication of a press release on the operation project

#### **June 24, 2020:**

- o Shareholders' Meeting authorizing the transfer of shares on Euronext Growth Paris;
- o Board of Directors deciding on the transfer;
- o Request to delist the shares from Euronext Paris and request for their admission to Euronext Growth.
- o Information relating to the final transfer decision (second press release)

#### **August 21, 2020:**

- o Notification by Euronext of its decision to admit the shares to Euronext Growth Paris (release of an admission notice by Euronext)
- o Publication of a press release by the Company announcing the transfer to Euronext growth Paris and posting of the information document on line.

#### **As of August 25, 2020:**

Listing of Amoéba's ordinary shares on Euronext Growth Paris

#### **About AMOEBA:**

Amoéba's ambition is to become a major player in the treatment of bacterial risk in the fields of water, healthcare and plant protection. Our biological solution is an alternative to chemical products widely used today. Amoéba is currently focusing on the market of industrial cooling towers estimated at €1.7Bn <sup>(1)</sup> on a global chemical biocide market for water treatment, evaluated at €21Bn <sup>(2)</sup> and on the biocontrol market for plant protection estimated globally at €1.6Bn <sup>(4)</sup>. In the future, the Company is looking at developing new applications such as chronic wound care, estimated at € 751 million <sup>(3)</sup> in the USA. Sales of associated products with healthcare, biocides and crop protection are subject to the Company being granted local regulatory market authorizations. The Company is currently in a trial phase for biocidal and plant protection applications and does not market any products.

Created in 2010, based in Chassieu (Lyon, France) with a subsidiary in Canada and in the United States, Amoéba is quoted on the compartment C of Euronext Paris. The Company is a member of the BPIfrance Excellence network and is eligible for the PEA-PME SME equity savings plan setup.
