About AMOEBEA:

Founded in 2010, Amoéba is a French company, based in Chassieu (Lyon, France), specialised in the treatment of microbiological risk in natural resources. Over the last ten years, Amoéba has developed a triple scientific, industrial and commercial expertise around the amoeba *Willaertia magna* C2c Maky. This biological solution is an alternative to the chemical products widely used today. Amoéba is currently focusing on the biocontrol market for plant protection, estimated at €1.6 billion (1), as well as on the US market for industrial water treatment in closed circuits. In the long term, the Company plans to develop new applications such as the treatment of chronic wounds, valued at €751 million (2) in the United States. The commercialisation of crop protection, biocides and healthcare products is subject to local regulatory approvals. The company is currently testing the biocontrol application for plant protection and does not market any products.

Amoéba is listed on Euronext Growth. The Company is a member of the BPI Excellence network and is eligible for the PEA-PME scheme. More information on www.amoeba-nature.com.
